<sup>1</sup>Increasingly, employers in land and water resources engineering consider the Master's degree to be the entry "working degree". Students are therefore strongly encouraged to consider a concurrent BS/MS.

Also, there are many excellent and career-relevant courses at Iowa State that are not required in this curriculum, but would be good choices for a student who has the room and inclination to take them. These include (but are not limited to):

A B E 388 (F) 3 cr. Sustainable Engineering and International Development  
C E 111 (FS) 3 cr. Fundamentals of Surveying I  
EnSci 404 (S) 3 cr. Global Change  
EnSci 407 (S) 4 cr. Watershed Management  
EnSci 411 (F) 4 cr. Hydrogeology (could be substituted for CE subsurface systems course also)  
EnSci 418 (Alt F13) 3 cr. Stream Ecology  
EnSci 463 (S) 4 cr. Soil Formation and Landscape Relationships
