Your mower likely requires maintenance before the workload and heat of the summer! The Agricultural System Technology Club at ISU will provide your lawn mower or weed eater with routine service including an oil change, new spark plug, blade sharpening, air filter cleaning, deck cleaning, and a power wash. The Lawn Mower Service Days event is located on the far west side of Sukup Hall, near parking lot 6, accessible from Sheldon Ave. The AST Club at ISU provides routine service only, no major repairs, and is not responsible for damages that occur through the process of pickup/delivery and service.
